Project Learning Tree *Trees & Me: Activities for Exploring Nature with Young Children* correlation of Structured Experiences to the SC Early Learning Standards (Reverse)

Project Learning Tree's *Trees & Me: Activities for Exploring Nature with Young Children* is a comprehensive guide for teachers and caregivers to use for connecting children ages 1-6 to nature, with a particular focus on trees. The guide contains 12 numbered activities, which are divided into 3 sections based on theme and include many structured "experiences".

The SC Early Learning Standards (SC ELS) describe expectations for what children will learn, from infancy through kindergarten entry. They are divided into six developmental domains: Approaches to Play and Learning (APL), Emotional and Social Development (ESD), Health and Physical Development (HPD), Language Development and Communication (LDC), Mathematical Thinking and Expression (MTE), and Cognitive Development (CD). Each domain is organized into goals to support planning appropriate activities and learning experiences for children.

The following document shows which goals from the SC Early Learning Standards (ELS) correlate to the structured experiences in the *Trees & Me: Activities for Exploring Nature with Young Children* book. Each structured experience has been correlated to at least one goal from the SC ELS; the specific goal's abbreviation and number is used to show this connection (e.g., *HPD-5*).

While this document was thoughtfully developed in detail, there may exist additional correlations. Unstructured activities & experiences, and basic suggestions for providing materials were not correlated.

The SC Early Learning Standards (2017) can be found as a free, printable PDF document on the SC Department of Social Services, Division of Early Care and Education website at www.scchildcare.org. *Trees & Me: Activities for Exploring Nature with Young Children* may be found online or by contacting the SC PLT State Coordinator, Matt Schnabel, at the South Carolina Forestry Commission.
